Baptist Pastor Tells Again Old
Story of Lot and
Family
IST AWAY FROM FARM
MOVEMENT TRACED
Seathing Rebuke Administered
for Conduct of Some Lat-
est Day People

Large congregations were in at-
tendance at both services of Central
Baptist Church Sunday. At the con-
clusion of the morning hour, E. G.
Almon was ordained as deacon, the
ordination prayer being led by Rev.
J. E. Weaver and followed by the
simple but impressive ceremony of
laying on of hands.

The evening music was exceptionally
good, the orchestra assisting the large
chorus and a special selection by the
male quartet. At this hour, the
pastor delivered the closing sermon
of his series on The Home; the special
theme being The Modern Home.

The terms old fashioned and modern
do not refer to the time but to the
kind. Four thousand years ago
there were people and families just
as anxious to be up to the minute
in everything as any we have now.

When deciding where he would
locate, Lot overlooked all but one con-
sideration. You do not hear him ask-
ing what kind of neighbors he would
have as the associates of his wife and
children. Neither is he making his
move in order to have better church or
school facilities.

"And Lot lifted up his eyes, and be-
held all the plain of Jordan, that it
was well watered everywhere ***
even as the garden of the Lord, like
the land of Egypt *** and Lot dwelt
in the cities of the plain, and pitched
his tent towards Sodom."

"The thing which seems to have
had such attractions for Mrs. Lot and
her daughters was the opportunity to
'climb' socially. And, like modern
climbers, the climb was downward.
They became enmeshed in the evils
which have made Sodom infamous
ever since. And there is much of
modern so-called high society just as
fatal to the home. About decent be-
time, the young people 'in society'
start out to their dances. After mid-
night, the automobile rides must be
taken before the return home. We
speak of the midnight ride of Paul
Revere as a wild affair, but it was
tame compared to some of the mid-
night rides of society now."

"If you wonder why our country
neighbors scorn what they conceive as
'town society,' ask them of the evi-
dences found in groves or churchyards
where some of these rides end and
you will be longer wonder at their es-
timates. Mrs. Lot and the Misses
Lot were so infatuated with such so-
ciety that the married daughters re-
fused to depart when warned of the

AFTER EIGHT YEARS AS HEAD
OF P. O., RETIRES ON MARCH 4

POSTMASTER GENERAL BURESON

After eight years as head of the postal service in the United States, Mr. Bureson is getting his office in shape to turn over to Will H. Hays, his probable Republican successor on March 4. Mr. Bureson says he is glad to reenter private life.

Public Service Commission Faces Busy Docket for March Term at Capital

(Montgomery Bureau Albany-
Decatur Daily.)
MONTGOMERY, Ala., Feb. 28. —
The days when there "was nothing to
do until tomorrow" in the Alabama
public service commission are over and
members do not now have time to
look back to the time when railroads,
telephone companies and other util-
ities were under government control
and when their only authority was
in an advisory capacity and exercised
with the full consent of the govern-
ment.

Twenty-two cases appeared on the
docket today for consideration at the
March term which will begin March 7
and will continue until all cases have
been heard or postponed by request.
These petitions and complaints rang-
ed from a request for the discontinu-
ance of agencies to complaints against
rates on raw materials used by fur-
naces in the Birmingham district. The
latter case has been before the com-
mission for several months but has
been postponed from month to month
either at the request of those who
made the complaint or the other side.
Operators of furnaces in the Birm-
ingham district contend that the rates
on raw materials such as coal, coke,

iron ore and limestone necessary in
the operation of furnaces are unrea-
sonably high, higher than the rates
which the director-general of railroads
intended to give by his famous general
order No. 28.

Among the cases is the petition of
Ray Rushton, receiver of the Mont-
gomery Light and Traction Company,
for permission to establish a service-
at-cost rate on the street car lines
of Montgomery. This is a novelty for
the south. It is proposed to make the
basic rate ten cents for a ride, this
rate to continue until two hundred
thousand dollars has been placed in
an operating fund. When two hundred
thousand dollars is in the fund the
rate will be reduced one cent and the
new rate will be continued until the
fund has been reduced to one hundred
thousand dollars. If six months' op-
eration does not reduce the fund below
two hundred thousand dollars
another reduction of one cent will be
made. Thus will continue the re-
duction or increase in rates. It is
claimed the system has been used in
northern cities with great success.
Mr. Rushton claims this rate will re-
move the car company from the hands
of the receiver.

President Wilson Will Not Send Farewell Message to Congress

(International News Service)
WASHINGTON, Feb. 28. — Presi-
dent Wilson will send no farewell mes-
sage to Congress, it was stated at the
White House today. The President
has intimated he has sent his last com-
munication to Congress unless he de-
sires to communicate in relation to

legislative matters yet to be laid
before him.
This announcement from the White
House was interpreted as off-setting
reports that the President has planned
to send the peace treaty back to the
Senate before leaving office. There
is no indication today of any such
action.

Democratic Primary is Probable in The Fourth Congressional District

(Montgomery Bureau Albany-
Decatur Daily)
MONTGOMERY, Ala., Feb. 28. —
W. R. Nesbitt, chairman of the state
days for a meeting of the state Demo-
cratic executive committee, is ex-
pected to issue a call during the
next few days for a meeting of the
state Democratic executive com-
mittee for the purpose of arranging a
Democratic primary in the fourth
congressional district which will select
a nominee for congressman as the suc-
cessor of Congressman Fred L. Black-
mon, deceased.
It became known today that Chair-
man Nesbitt has been in correspond-
ence with various Democrats of the
fourth district and has obtained their
views, which are unanimous in favor
of a primary. As no district Demo-
cratic executive committee is in exist-

be issued by the state committee.
Democrats want a primary in order
that all forces of democracy may be
united in the special election which
Governor Kilby will call for the selec-
tion of a congressman. Republicans
cast two-thirds as many votes as the
Democrats in the November election
and it is feared a division of Demo-
cracy in the special election might
result in the election of a Republican.
Major Lamar Jeffers of Anniston,
who will be a candidate for the Demo-
cratic nomination, came to Montgom-
ery today and conferred with friends.
He left at six o'clock for his home at
Anniston, going by way of Birming-
ham. The only other candidate for the
Democratic nomination is S. P. Mc-
Donald, of Sylacauga.
Reports indicate that A. P. Long-
shore, of Columbiana, will be the Re-

Tower Man Blames Michigan
Central for the Rail
Disaster

(International News Service)
PORTER, Ind., Feb. 28. — Forty
two known dead at noon marked
the tragic toll of the New York
Central-Michigan Central crash
here. It seemed certain the death
list would be swelled as rescue
parties continued their search.

PORTER, Ind., Feb. 28. — Thirty-
four were known to have been killed
when dawn lighted up the rail dis-
aster here today and revealed rescue
parties half frantic with the night-
mare they had been through, still
tearing at the wreckage to recover
bodies believed to be buried in the
twisted mass of steel and wood.

At this time the number of injured
was placed at close to 100. Most of
those injured, who did not die with-
in an hour or two, were but slightly
hurt.

The coroner's inquiry got underway
early today for a thorough probe of
one of the most gruesome disasters in
railroad history. The wreck occurred
when a New York Central flyer crash-
ed into the Canadian limited of the Mich-
igan Central railroad.

Blames M. C. Train
The tower man at the intersection
of the two roads claims that the Mich-
igan Central train ran past two block
signals that had been set against it.
The Michigan Central flyer had half-
way shot over the intersection track
when the New York Central limited
ploughed through a wooden day coach
of the Canadian limited, smashing it to
kindling and hurling the bodies of the
killed and maimed on both sides of
the right of way.

A majority of the victims were res-
idents of Michigan City, Ind. Porter
has no physician and but few res-
idents. The crash was heard for miles
and soon there began pouring in from
the surrounding countryside scores of
farmers and their wives and daugh-
ters. Also there came two physicians
from Chesterton, a mile away.

Tear Up Skirts
While women tore up their skirts to
make bandages for the injured, men
helped them to the homes of residents
where they were put to bed. The
bodies were removed first to the town
hall here and then to undertaking
rooms in Chesterton where an im-
provised morgue was set up.

The air was filled with screams from
the injured and dying many of whom
were pinned beneath the wreckage.
Farmers, passengers and townspeople,
armed with axes and picks climbed
over the wreckage, chopping away
timbers and dragging the injured out
to safety.

Between 18 and 20 cars were strewn
along the right of way, many at crazy
angles, while two were reduced to
kindling wood. With the exception of
bruises and cuts, none of the oc-
cupants of the two sleepers were hurt.
The two Canadian parlor cars also
came off untouched.

Food Supply Short
Another element was added to the
confusion here this morning when the
food supply of the town was exhaust-
ed after feeding wreck victims and
rescuers all night. Supplies are be-
ing rushed from Gary and other near-
by towns, however.

Last night's wreck was the second
bad disaster on the Michigan Central
in the past three years. On July 22,
1918, 61 persons were killed and 179
injured in a rear-end collision between
and equipment train and a circus
train, 5 miles west of Gary, not far
from the scene of the present crash.
In most cases several wooden
coaches contributed to the death toll.

ALLIES READY TO
DEMAND GERMANS
PAY THE INDEMNITY

(International News Service)
LONDON, Feb. 28. — The allies are
"all set" for the indemnity confer-
ence. As a result of the meeting on
Sunday of the allies statesmen and
military chiefs, the allies are ready
to stand shoulder to shoulder against
the Germans and will not grant any
"considerable concessions", it was de-
clared today.

When the conference opens on Wed-
nesday the allies will be ready for any
eventuality—even military action if
the Germans balk at paying the sums
demanded.

Marshal Foch and Field Marshal Sir
Henry Wilson, chief of the British
imperial staff, were engaged to day
in drawing up a military report which
will be submitted on Wednesday.

Marshal Foch has furnished full de-
tails of a plan for further armed in-
tervention in Germany to enforce pay-
ment.

MATLOCK, HERE 2 YEARS, PLANS TO ENLARGE BUILDING

Matlock's cash store, which cele-
brates its second anniversary here
Tuesday by a big anniversary sale,
may soon have a larger home. Plans
have been drawn for an extension of
the present handsome home some 15
feet in the rear. The extension is
understood, hinges upon the "lease
for the building."

Announcement was made today that
Ernest Walker, popular local cloth-
ing man, has accepted a place with
Matlocks.

Auto Show Opens Nashville March 7

The great Southern Automobile
Show will open in Nashville on Mon-
day, March 7, and continues all week.
Over 40,000 square feet of exhibition
space will be occupied in displaying
200 different models of 50 makes of
cars with a magnificent showing of
trucks and automotive equipment.

This year the new Page building will
house the exhibit. This structure is
conceded to be the largest garage
building in the South and is ideally
adapted for an automobile show.
Located in the heart of the business
section it is easily accessible from all
sections.

More money has been spent on en-
tertainment for the show this year
than ever before. Many well known
musicians will furnish a full program
each day and two orchestras have been
engaged to play continuously. The
decorations and exhibits will surpass
any previous show.

Plan to attend the 1921 Nashville
Auto Show at least one day. It is
instructive, entertaining and inspir-
ing.

A. B. and A. Cut in Wages Authorized

(International News Service)
ATLANTA, Ga., Feb. 28. — An order
authorizing former President Bugg,
now receiver for the Atlanta, Birm-
ingham and Atlantic railroad, to put a
wage reduction into effect, beginning
Tuesday, March 1, was issued by
Judge Samuel H. Sibley of the United
States court for the Northern District
of Georgia today.

Wages are to be cut 50 per cent of
all increases granted employees since
December, 1917.

Weekly Forecast
Unsettled wather is indicated, with
occasional rains. Temperature will be
nearly normal.

COMMITTEE WORKS
ON SETTLEMENT OF
COAL MINE STRIKE

(International News Service)
BIRMINGHAM, Feb. 28. — Richard
M. Hobbie, William T. Sheehan and
John W. Durr, composing the commit-
tee appointed by Governor Kilby to
investigate the late coal miners strike,
began their labors at 10 o'clock this
morning in the office established on
the second floor of the Tutwiler hotel
here.

The first work of the committee
was to study various correspondence,
claims, data and protests that have
found their way into the office of
Governor Kilby.

This, probably, will take up the
largest part of the day. Briefs on the
strike, to be presented by each fac-
tion, are to be considered next. The
operators' brief is ready for present-
ation, but the miners' statement will
be delayed a day at least while it is
being prepared.

The investigation probably will last
several days until full information on
the subject has been obtained.

Steps Are Taken To Libel Streamer Sinking Destroyer

WASHINGTON, Feb. 28. — Admiral
Rodman today wired Secretary of the
Navy Daniels that the usual steps
have been taken to libel the vessel,
Steel Inventor, which hit the destroyer
Woolsey on Saturday off the Pacific
coast of Panama, causing the des-
troyer to sink with the loss of one life
and with 15 missing. No further de-
tails were given and no word has been
received of the 15 men listed.

Will W. Nelson to Enter Realty Field

Will W. Nelson, editor of The Deca-
tur News for many years and for a
long time connected with Alabama
Journalism, has forsaken the news-
paper office to enter the realty field,
opening offices in Birmingham.

The Age-Herald says of Mr. Nelson:
Will W. Nelson, who for the past
25 years has been connected with the
press of Alabama, Tennessee and
Georgia, has come to Birmingham to
make this city his future home.

He has engaged in the real estate
business with L. P. Hill, owner of the
Enaley Enterprise. Mr. Hill will con-
tinue the publication of his paper in
the future as in the past.

Mr. Nelson owns a handsome home
at Norwood, where he and his wife
will reside. His real estate office is
located at 2121 Third avenue, north.

For many years Mr. Nelson was a
member of the Alabama Press asso-
ciation and attended the annual meet-
ings until he accepted the position of
publicity director with the army at
Camp Jackson, near Columbia, S. C.,
during the days of the war. For the
past year he served as city editor of
the Columbia Ledger, Columbia, Ga.,
coming to Birmingham only a few
weeks ago.

In years past Mr. Nelson acted as
correspondent for The Age-Herald and
during that time contributed to the
columns of the paper a number of
Sunday stories of interest. He is well
known in Birmingham and throughout
the South.

Transportation Act Under Fire

WASHINGTON, Feb. 28. — The at-
torneys general and utility commis-
sions of 42 states today filed a brief
in the Supreme court of the United
States in the Wisconsin rate case,
which is the first to reach the Su-
preme court investigating the con-
struction and constitutionality of the
Esch-Cummins law. The brief attacks
the constitutionality of the transporta-
tion act of 1920 as administered by
the Interstate Commerce Commission
and the right of the commission to
order intrastate rates raised to the
level of inter-state rates.

PRELIMINARY SET
FOR TWO HELD IN
NIGHTRIDING CASE
IN "HIGH JACKSON"

John Brown and Joseph Beavers
Are Held at Scotts-
boro

SECTION QUIET TODAY
MESSAGE TO DAILY SAYS

Letter to United States Deputy
Marshal Urges an In-
vestigation.

John Brown and Joseph Beavers,
held at Scottsboro on charge of night-
riding and threatening to kill, were to
be given preliminary hearings today
before Probate Judge A. H. Mooney,
of Jackson county, according to a
long distance message received here.
The arrest of Brown and Beavers
was an aftermath of a shooting af-
ray four miles from Fackler Thurs-
day night when a band of masked
men is alleged to have attempted a
raid upon the McGowan home. Forty
shots were exchanged it was stated.

Four state law enforcement of-
ficers, who went to Jackson county
to investigate the raid returned to
Birmingham this morning, it was
said. The Jackson county jail was
under guard Saturday and Sunday
nights, but no further trouble was re-
ported to officers. Scottsboro is quiet
today.

The Jackson county grand jury will
meet next Monday when it was expected
a thorough investigation of the
recent "nightriding" cases would be
made. The affair near Fackler is
said to have been one of the contribu-
tory causes to the following letter
received in Huntsville from Stevenson
by United States Deputy Marshal
Hackworth:

"Things have taken on a shape
here during the last two or three
days which is something awful.
Several men have been taken out
and beaten up terribly, and some-
thing is going to have to be done.
If something is not done, I feel
that we will have something hap-
pen soon which will be a very bad
affair and some good citizens will
get themselves in trouble. You
should come up here at once if
you possibly can."

While members of the organization
deny that the union is connected with
the recent outbreaks, the name of the
Tenants Union has been mentioned in
connection with the case and attacks
on farmers are said to have been
made on non-members of the organiza-
tion.

A long distance message from the
Sheriff of Jackson county to The
Daily this morning declared the sec-
tion was quiet today and no further
trouble has been reported in the coun-
ty, since Thursday night.

It is understood here that both
Brown and Beavers deny having taken
part in the raid on the McGowan
home.

Tax on Gifts by Wills Not Valid

(International News Service)
WASHINGTON, Feb. 28. — The in-
come tax act of 1918 does not im-
pose a tax on gifts bequeathed by
wills, the supreme court of the United
States today decided in the test case
of Stanley Field, executor of the es-
tate of Kate Fields. The court of
claims held that the act of 1918 does
not impose a tax on gifts made by
wills but related to transfers made be-
fore death.

Hose Expensive For This Woman

Hose proved an expensive article
for Matty Moore in the Albany police
court this morning. She was fined \$5
and costs following her arrest by
Chief Hendrix and Officer Lackey on
a charge of having stolen stockings
from the McGowan store.

THE POLL TAX AMENDMENT

The Daily has refrained from comment on the status of the soldiers and sailors poll tax amendment, hoping that when the supreme court ruled on a rehearing for the bond issue amendment that the decision would be favorable. The poll tax amendment was submitted in the same manner and ratified in practically the same way by the electorate of the state. It follows naturally if the bond amendment is invalid, the poll tax amendment also is illegal. The latter measure is only the afterthought of men never experiencing a test of its legality.

Should such a test be made this year, it is estimated that 40,000 ex-service men will lose their right to vote in Alabama. Accepting the act as it was intended, in good faith, these former members of the American fighting forces have availed themselves of the exemption granted by the people of the state and did not pay their poll tax this year. Now the date has passed when this tax might be paid for 1921 and no further opportunity will be presented.

Automatically this situation will cost the right of citizenship of all those men who have failed to pay the tax because of the constitutional exemption. Included in this number are several state and county office holders. The best legal talent in the state is of the opinion these men will not be entitled to continue in office.

It is a serious situation. Press dispatches from Montgomery Saturday were to the effect that should Governor Kilby decide to call a special session of the legislature, the lawmakers would be asked to consider no measure other than the resubmission of the bond amendment. While the poll tax amendment has not been attacked in court up to the present time, it is expecting too much to hope that it will not be should a close political campaign develop in Alabama this year. Would it not be better to take time by the forelock and resubmit the poll tax exemption act at the same time the people vote on the bond issue amendment?

COMPROMISE PROPOSED

The Washington bureau of The Montgomery Advertiser declares a compromise has been proposed to settle the legislative tie-up over the Muscle Shoals project. The Advertiser's correspondent says it has been suggested that the House pass the appropriation item with a proviso that the sum be held up until the inauguration of the new president, thus putting the appropriation squarely up to President-elect Harding.

Inasmuch as the appropriation will not be available until June 1, the end of the government fiscal year, friends of the project realize that President-elect Harding and his overwhelming majority in both branches of Congress could finally block the appropriation, if they chose, even after the money has been allocated by the present Congress.

The other feature of the reported compromise is that the name of the dam be changed from the Wilson dam to the Harding dam. It is inconceivable that a man big enough for President of the United States would be small enough to lend himself to a scheme of this character. Southerners, who look upon the President as a kind of exalted being, whether he be Democrat or Republican, will not believe that the new chief executive would prove himself only a ward politician by acquiescing in the plan. President-elect Harding surely is of larger caliber than that.

By this time Woodrow Wilson has become accustomed to self-sacrifice and should it be required that the name of the dam be changed from Wilson to any other name, no doubt he would be the first to suggest that the change be made.

Cannot the House of Representatives forget, even for a moment, that Muscle Shoals development is not a political venture, but a plan of immediate and lasting benefit to the entire American republic? If the congressmen only would consider the project on its merit, the appropriation would be given in record time!

FACTS ABOUT COTTON

World production of cotton outside of the United States, for factory consumption, has averaged 7,133,906 bales a year for the past 10 years, according to U. S. Census figures.

Pink boll worm, the most deadly of all enemies of the cotton plant first made its appearance at Hearne Texas, in 1917. Like boll weevil it came from Mexico.

Foreign grown cotton to the number of 682,911 bales was imported into the United States last year. It consisted mostly of Egyptians, and was the largest quantity ever imported.

The number of ginneries in the United States in 1919 was 22,418, of which 18,815 were active, and ginned an average of 602 lb. bales each.

Of the total of 18,815 active gins in the United States during 1919 all but 93 were saw-gins. Roller gins are used principally in ginning sea-island cotton, and the long-staple cotton of Arizona and California.

There is now enough cotton in the world, unspun, to last nearly two years.

The total capacity of gins in the United States indicates that a 12,000,000 bale crop could be ginned in a single month. The total engine horse power employed in ginneries of the United States in 1919 was 973,717.

Bolivar Co., Miss., was the only county which

128 more than 25,000 bales.

The cotton crop of 1919 was ginned in 887 counties, of which 308 ginned less than 5,000 bales each.

From the year 1900 to the outbreak of the Great War in 1914 the number of cotton spindles has increased at the rate of about 3,000,000 every year.

Since 1914 the number of cotton spindles fit for use has been reduced from a total of 154,000,000 to a total of 138,000,000, a decrease of 16,000,000 during the six years.

In the United States there are 68 counties which have more than 100,000 cotton spindles each.

Bristol County, Mass., with 7,632,003 cotton spindles, leads all other counties in the total number.

Rough Peruvian cotton is used to some extent for mixing with wool in the making of wool textiles, especially imitation woolsens.

Chinese and Indian cotton are used to a very limited extent for mixing with American upland cotton in the manufacture of the cheaper grades of goods.

Nearly all of the cotton consumed in the United States is domestic upland cotton.

The term "upland" is applied to all cotton produced in this country, except sea-island cotton, and includes the long staple upland varieties.—Prepared by the Cotton Acreage committee.

PLEASE, MR. EDISON, DON'T

If Mr. Edison really has perfected a device which will facilitate communication with the spirit world, the question arises whether mankind ought to regard it as a boon or beg the inventor to destroy it. When we stop to think of the number of inventions Mr. Edison might be devoting his genius to, inventions that would make things more pleasant and convenient for the living, it does seem a matter for regret that he should be putting in his time trying to encourage aimless conversation with the dead.

Such spirit conversation as has been given out by those who claim to have held up the earthly end of it will not impress many persons as being important enough to engage any investors time in an endeavor to facilitate it further. It does not seem a profitable line of talk, if we may venture an opinion. We do not believe conservative bankers or business men would underwrite an invention that promised so little in the way of commercial return. How much more promising is the field for inventions that would enable the living to communicate with each other more intelligently, and it may be added, with better results. Every day we see the living trying to convince each other of something presumably important with very slight success. Look at congress. Couldn't Mr. Edison turn out an invention that would make the Democrats understand what the Republicans are saying to them? Look at Ireland. For how many years now have the Irish and British been trying to exchange ideas across St. George's Channel and with what ill success. And yet Mr. Edison thinks this is a good time to establish liaison with spirits across all space. We wish he wouldn't. Already there is such confusion in the world that heads are spinning most of the time. The calmest minds have difficulty in maintaining a balance under the most favorable circumstances. If all the conversation now going on (with small results) is to be added to by whatever line of talk the spirits choose to contribute to the din, the world is going to be one continuous Versailles peace conference without any peace. We hope Mr. Edison will think better of it.

City Star.

MAN'S DUTY TO GOD
"Only God can make a tree," said the poet. "That is poetry," says the Mobile Register, "and poetry must be true. Yet the making of a tree may be an art in which God has given man a working partnership. We who view the orchards hereabouts can understand that fact."

Perhaps the most reverent among us, when we look upon the rows and rolling acres, are thinking chiefly not so much of what God hath wrought, but quite materially of development." Most of us remember—and we are not old—when there were no Satsumas on our coast; and the sight of golden fruit or white blossoms reminds us that we have a new industry. That is not vain-glory, and we cannot believe that it displeases God. Only God can make a tree, but God permits man to say where He shall make it; how far it shall be from another tree, and how many trees he shall make in the orchard. God permits man to shape the tree, to make it fruitful and to determine sometimes even what kind of fruit it shall bear.

Only God can make a tree. We ought to remember that when we are burning off the wooded land, and cutting over virgin forests.—Laurel Leader.

If the Judge Landis trial does not come soon, Senator Dial will lapse back into obscurity.

The only people who do not like Charles Evans for cause, are the barbers.

Brevity seems to be the soul of the spring skirts as well as of wit.

Will H. Hays has been announced as the most homely man of the new Cabinet. Here is hoping he cannot and will not act as ugly as Secretary A. S. Burleson.

Statisticians have established the fact that you can feed a wife on good wholesome food, as cheaply, as a pretty girl can be nourished at a modern soda fountain, or fed on bon-bons. So why delay the ceremony, boys?

A well known detective agency has discovered that Atlanta, Ga. boosters, started the false report, that Georgia possessed a modern Enoch Arden, in the hope of attracting notoriety.

If those who are forging to the front by the use of falsification, knew for certain, that they would sooner or later be forced to win their living at the forge of hard work in some "den," they

Taxes Due on Real Estate Must be Paid by March 7, Officer Warns

Taxes due on real estate in Morgan County must be paid by March 7, or the property will be advertised and levied upon, Tax Collector Charles C. Robertson warned today.

"We do not want to place any citizen under this additional burden, but there is no other course open for us," Mr. Robertson declared. "Unless the taxes are paid upon real estate by March 7 the law requires us to advertise the property and levy upon it. This, of course, is a course we do not like to pursue. I hope every citizen will look after the payment of his taxes immediately and prevent any further trouble or responsibility."

Amos Liquor Case Reversed by Court

(International News Service)

WASHINGTON, Feb. 28.—The Supreme court of the United States today reversed the conviction of Lawrence Amos, of South Carolina, charged with making "moonshine" whiskey and for concealing whiskey for the purpose of evading taxes.

Amos was convicted on the latter charge and sentenced. He appealed on the grounds his house was searched, the liquor seized and himself arrested, all without legal warrant. The supreme court held there was error in the lower court in admitting certain evidence against Amos.

Venire Summoned For Term of Court

The following venire has been summoned for service in the county court for the week beginning March 14:

Frank Otte, W. Henry Lawrence, Elbert Ryan, Gilbert Ryan, Gilbert C. Frost, Thos. E. Sutton, Tom Mulligan, Martin H. Flack, Mm. C. Wiley, W. Tom Stewart, Walter Breedlove, J. Chris White, T. Sidney White, T. Sidney Johnson, Ben H. Garrison, Ed. Luker, Ed. W. McCleskey, L. Harvey Nighten, Joseph Morgan, Will M. Wiggins, Sim. Tapscott, Oscar H. Reeves, Emmett M. Bussy, J. Will McKee, Sam Cryer, Avery W. Sharpley, Geo. M. St. John, Wm. M. Brothers, J. Freeman Herring, E. Clay Speegle, Frank C. Brooks, G. Barrett Moore, Thos. J. Overstreet, Simon A. Johnson, A. Guinn Puckett, Jas. B. Black, Jas. C. Wheelch, Joe Taylor Robinson, E. Elms Ryan, Roy Fite, J. Harrison Sharpe, Ed. L. Craft, Chas. B. Roberts, Hilliard Vest, Jno. H. Hampton, Harvey R. Hamilton, J. Orie Palmer, Chas. Vickers, and Curtis B. Hopper.

Placed in Jail
Negro woman is

Mary (Curley) Baine, negro woman, wanted in connection with the killing of Willie Pete, another negro, here just before Christmas, is behind the bars in the Morgan County jail this morning. She was returned here from Atlanta, where she was arrested.

FEDERAL FARM
LOAN ACT VALID

(International News Service)

WASHINGTON, Feb. 28.—The Federal farm loan act was declared constitutional by the United States supreme court today and the court declared farm loan banks are lawful institutions, authorized to issue bonds. The opinion was rendered by Justice Day.

Prominent Citizen
Called by Death

Harry Morrow, aged 55, one of Morgan County's best known residents, died this morning at his home in Somerville. He was stricken with paralysis Sunday afternoon.

Funeral services will be held this afternoon at the Methodist church at Somerville and interment made in Somerville. He is survived by one sister, Mrs. Pryor Rice.

DON'T STICK FINGERS
THROUGH FENCE CRACKS

DETROIT, Mich., Feb. 28.—Small boys who stick their fingers through the crack of a fence and have a digit bitten off by dog do so at their own risk and no damages can be collected, Judge Gordon ruled here today.

The decision was in the suit of seven-year-old Joseph Scammacca against Toney Kilrays for \$500 for the loss of the boy's finger.

SEED WIN

(International News Service)

WASHINGTON, Feb. 28.—By a vote of 198 to 133 the House today instructed its conferees to insist that the appropriation of \$360,000 for free seed remain in the agricultural bill.

Hard-working men who are burdened with a torpid liver, feel tired, lazy and discouraged. They know they are lazy and they are ashamed, yet it is nothing to be ashamed of. The thing to do is to get the liver started again and to purify the stomach and bowels. There is no better remedy for this purpose than Prickly Ash Bitters. It puts a man in working trim and makes life worth living. Price \$1.25 per bottle. Sold by all druggists.—Adv.

"Midnight Ride" of Paul Revere Tame

(Continued from page 1)

near approach of destruction, Mrs. Lot looked back and became the celebrated pillar of salt, and though Lot did get two of his daughters out of Sodom it was impossible to get Sodom out of them.

Made their Mistake

"What was their mistake? They left God out of their home. They were too modern to practise the principles of the Kingdom of God. Lot, the righteous one in the home, fell so into the ways of the world that he lost his influence, so much so that he had no power for God even in his own home.

"We close with this picture in connection with the destruction of Sodom: And while he lingered, the man (angels) laid hold upon his hand, and upon the hand of his wife, and upon the hand of his two daughters; the Lord being merciful unto him; and they brought him forth, and set him out of the city. And God's angels still are laying hold of parents and children in the home. Those who yield secure safety. Those who do not are doomed, even as those who stayed in modern Sodom of ancient times.

Why Are Skin Diseases
So Difficult to Overcome?

When your skin breaks out with itching eruptions, tetter, rash, eczema, psoriasis, or other terrifying disorders, temporary relief will do you but little good, for soon all the itching and irritation breaks out afresh with renewed fury, and you soon realize that local remedies such as ointments, salves and similar treatment will never rid you of your trouble.

These troubles originate in the blood, and if you expect real sub-

stantial relief you must treat them through the blood.

The best remedy for this purpose is S.S.S., the fine old blood remedy that purifies the blood of disease germs, and thus restores the skin to a normal and healthy condition.

Begin taking S.S.S. today, and write a complete history of your case, and our medical director will give you expert advice without charge. Address Chief Medical Adviser, 161 Swift Laboratory, Atlanta, Ga.

VOLUNTEERS SENT TO WAR AREA BY PANAMA LEADERS

(International News Service)

BALBOA, C. Z., Feb. 28.—Although Panama has no regular army she is continuing to send volunteers into the field and otherwise prepare for war against Costa Rica as a result of the quarrel over territory in the Chiquiriqui district on the Pacific coast.

A report that hostilities had already opened is not officially confirmed by the Panama government. Word is expected from the commander of the volunteers this afternoon.

Other volunteers will reach the district during the day. Both Panama and Costa Rica are members of the League of Nations but Panama announced that she will not send any notice to the league regarding the aggressive action of Costa Rica until the formal statement as to its intention.

Alabama Saving European Children

STATE NOW WELL PAST HALF-WAY MARK ON "SAVE-A-LIFE" QUOTA

BIRMINGHAM, Ala., Feb. 28.—Special—Alabama has forged well past the half-way mark of her quota of 20,000 lives—to be paid for by raising \$200,000 in the state—to be paid for by slight gifts from Alabama people that European children may have the greatest gift of all—the gift of life. But well past the half-way mark is not reaching the goal and Erskine Ramsay, state chairman of the European Relief Council, and his immediate aids are urging that every worker in the state get into the spirit of the appeal, paint word pictures of starving innocents that will bring dollars from the most hardened, and put Alabama "over the top" with the necessary funds in short order.

Up to the close of business Saturday night J. Kirkman Jackson, state treasurer of the council, had received \$129,638.89. To this is to be added several thousands of dollars in pledges that have not been received. It is probable that these will bring the total to at least \$135,000. But this means only 13,500 lives—and Alabama has been asked to cheat death of 20,000 innocent lives. Will Alabama lag?

It is still necessary that returns be made from all parts of the state before the totals can be accurately compiled. For there are dozens of counties where chairmen and workers are busy with the work and have failed to give the headquarters staff any indication of how the work is being conducted or how much money has been raised. When these amounts have been turned in it is certain that many thousands of dollars will be added to the present total.

WEATHER

Fair Tonight and Tuesday

SPRING IS COMING—TAKE GUDE'S PEPTO-MANGAN

Thousands of People Take It Every Spring to Regain Health and Fight Illness

MAKES BLOOD RICH AND RED
Helps to Build Up the Entire Human System with Life-Giving Oxygen

In the Springtime, after a winter sickness or long days pent up indoors, the blood becomes clogged with waste matter. The little red corpuscles in your blood become inferior. They do not absorb enough oxygen when they pass through the lungs. The tiny cells, billions of them, miss the nourishing effect of the oxygen, and faces become pale, bodies weak.

If you feel out of sorts, cranky, tired out most of the time, it is probably because your blood is weak. If you have no other disease pulling you down, you can be pretty sure your blood is weak and you need the help that Gude's Pepto-Mangan, the well known Spring blood tonic, gives.

Gude's Pepto-Mangan makes rich red blood and puts new life into the red corpuscles. If you are anemic (a thin-blooded condition) Gude's Pepto-Mangan will restore the right number of red corpuscles. You will notice a general improvement, better appetite, more restful sleep, better complexion, wide-open clear eyes.

Get Gude's Pepto-Mangan at your druggist's. He has it in liquid and tablet form. It makes no difference which you take, because the tablets and the liquid from both have the same medicinal value. Get the genuine Gude's Pepto-Mangan with the full name, "Gude's Pepto-Mangan," printed

HIGHWAY BOARD TO MEET IN A SPECIAL SESSION TO CURTAIL ROAD IMPROVEMENT

Chairman Rogers Requested by Governor Kilby Call Meeting Immediately

PRESENT ORGANIZATION FACING DESCRIPTION

Alabama Has Less Than Million Now to Spend on Highways

(Montgomery Bureau Albany-Decatur Daily)

MONTGOMERY, Feb. 28.—Governor Kilby has requested John A. Rogers, chairman of the state highway commission, to call an extraordinary session of his board at once for the purpose of curtailing the work of the highway department. This results from the final decision of the supreme court against the validity of the twenty-five million dollar bond issue which was rendered Thursday.

Chairman Rogers is expected to call the session for one day next week. Until funds are obtained for the road construction work outlined by the highway department, Governor Kilby does not believe the present organization should be kept on the pay roll of the state.

Alabama has less than one million dollars of state funds a year to spend on road work since the supreme court rendered its decision. Its only source of income is the motor vehicle license and under the general revenue law of 1910 twenty per cent of this fund must be given to the counties and cities. The total is about one million dollars which reduce the state funds to about eight hundred thousand dollars a year.

COTTON MARKET SHOWS A SLUMP

(International News Service)

NEW YORK, Feb. 28.—Weak Liverpool cables were mainly responsible for renewed heavy general liquidation at the opening of the cotton market today under which first prices showed a decline of 21 to 50 points. Liverpool and Japanese interests were large sellers, the South was a small buyer.

BUICK

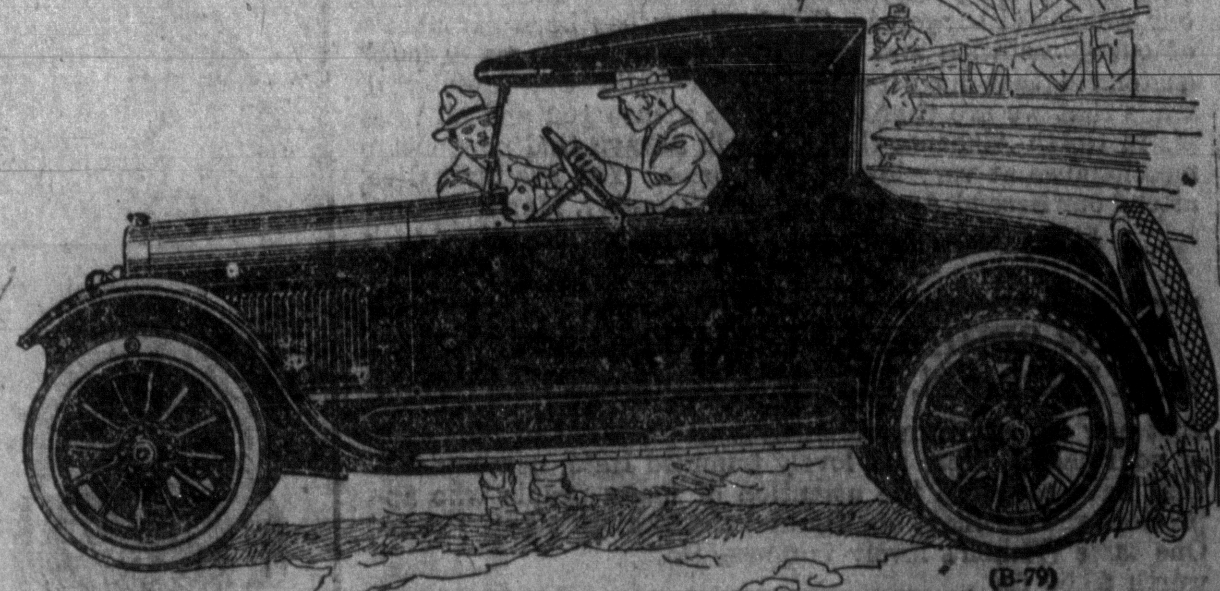

If you believe Buick owners praise their cars too highly, try out a new 1921 Buick.

You will find the Buick Valve-in-Head motor as staunch; and the car as dependable, as its reputation would lead you to believe. Only by riding in a beautiful, new model can you fully appreciate the comfortable seating, resilient springs, accessibility of mechanism and pleasing appointments—a combination of the beautiful and practical.

Maximum investment return is insured by Authorized Buick Service.

Some Name. As He Saw It. Products of Iceland. The full name of the Persian poet, Omar Khayyam, was Ghiyath ad Din. An English youngster gave this definition of "appetizer": "It means that when you've done you're right."—Boston Transcript. Iceland is the source of the agate and chalcedony which are made into jewels for bearings in watches and electrical instruments.

LOCKED OUT!

Not because we wanted to—no—but because we had to—Oh! My! did you see that crowd, fully 8,000 people were here—

THEY CAME, THEY SAW, THEY BOUGHT

What a glorious good natured crowd it was. Long before the doors were opened they gathered, until the street was packed. There wasn't room in the building if they could have been stacked three deep, so just had to let in what we could accommodate. Just a little reason on your part, things must have been right. Now good people—some who did not get a chance at the good things Saturday, we are going to give you another chance Monday night. Some more half hour sales:

7:30 to 8:00 SUGAR—GRANULATED per pound 5c 5 lbs. to customer.	8:00 to 8:30 CLEAR WHITE MEAT per pound 10c 5 lbs. to customer.	8:30 to 9:00 SWEET ORANGE per dozen 20c 1 doz. to customer
9:00 to 9:30 NUTS worth 40c, Special, per pound 15c	Ladies' all pure wool SWEATERS All colors, worth \$15.00 Special \$2.98 and \$4.98	LADIES' SILK WAISTS Georgette worth \$10.00 to \$12.00, Special \$2.98 and \$3.98

There are thousands of other articles priced at about 1-3 of their regular price. You will be the loser if you fail to come to this, the greatest of all sales—Sale lasts for 10 days, but best goes first you know.

Come Tuesday, the big day sure, be sure to exchange your sales checks for coupons on \$150.00 talking machine to be given away during this sale.

Healthy Young Womanhood

THE tendency to constipation begins with girls as they approach maturity, and that is the very time the mother should watch that the important function of daily elimination is regular and normal. Many thousands of mothers who have daughters will tell you they give only Dr. Caldwell's Syrup Pepsin. A teaspoonful is sufficient to relieve constipation and its commoner symptoms such as headache, bad breath, biliousness, loss of appetite and restlessness.

Syrup Pepsin is a compound of Egyptian Senna and other simple laxative herbs with pepsin and pleasant-tasting aromatics, and a sixty-cent bottle is enough for many months. Eight million bottles were bought at drug stores last year, the largest sale of the kind in the world. Dr. Caldwell's Syrup Pepsin has been on the market thirty years and there must be genuine merit behind it to develop so large and steady a sale. Buy a bottle today and you will quickly see why it is so popular.

TRY IT FREE

Send me your name, and address and I will send you a free trial bottle of my Syrup. Address me Dr. W. B. Caldwell, 513 Washington St., Monticello, Ill. Everybody now and then needs a laxative, and it is well to know the best. Write me today.

Avoid a constipated habit, it breeds disease in the body. An occasional dose of Prickly Ash Bitters will keep the bowels healthy and regular. Men use it and find it good for that purpose. Price \$1.25 per bottle. Sold by all druggists.—Adv.

There is nothing in the world quite so nourishing or helpful as

Scott's Emulsion

for thin, anemic girls of "teen-age." It is well worth trying.

MINE CLAIM WORTH MILLIONS WAS BOUGHT FOR 50 CENTS

By M. T. DACEY,
International News Service Staff
Correspondent

IDAHO SPRINGS, Colo., Feb. 28.—The story of how a mining claim, originally purchased for fifty cents

at a tax sale, was later sold for \$200,000, and has already yielded several million dollars' worth of ore, was told here by Nathan S. Hurd, pioneer mining man.

Hurd, who is eighty-six years old, made and lost several fortunes in the Colorado mining industry. He is now retired and lives in Denver.

"The story is of the 'Old Whale' mine, located just outside of Idaho Springs, and the first chapter was written back in the early 60's when adventurous young men, under the urge of prospective fortunes to be wrestled from the veins of the Rockies, crossed the plains in ox teams, on horseback and even afoot.

"In 1830 I left Denver in the rush of the newly discovered gold fields of Spanish Bar, about two miles from where Idaho Springs is now situated," Hurd said. "There I met Colonel John H. Dumont, later a prominent mining man of the State.

"It was customary in those days, when we made our own laws, to form mining districts whenever a rush occurred. The first persons reaching the camp after the original discovery could stake off 22-foot claims adjoining the original claim. The next could procure adjacent claims, and so on.

"Then, as the camp grew, and it was

necessary to support some sort of government these claims were taxed. Of course, many of them would prove to be valueless and their original claimants would abandon them to be sold for taxes.

Sold for Taxes

"It was at such a sale held in the rear of an old shack that I bought the claim that later became a part of the 'Old Whale' mine. The owner had abandoned it believing it was too far from the original strike to contain pay ore. Nobody would bid on it, so I finally offered a half dollar. The bid wasn't raised, so the claim was knocked down to me for fifty cents.

"A few months later I did some work on the claim during my spare time and uncovered what seemed to be paying traces of ore. Colonel Dumont looked the claim over and offered me \$1,200 for it, which I was glad to accept.

"Colonel Dumont developed the claim, found rich ore, bought some adjoining ground and a few days later sold the whole business for \$200,000."

"Think of it!" Hurd exclaimed, "two hundred thousand dollars for a claim that I paid fifty cents for."

"But that's not all," he concluded. "Since that time \$2,000,000 worth of ore has been taken from the Old Whale mine, and offers of several million dollars for it have been refused."

Hurd declared that similar sales and discoveries were not uncommon in the early days of mining in the State.

California Seeks Information About Alabama's Lands

(Montgomery Bureau Albany-
Decatur Daily)

MONTGOMERY, Ala., Feb. 28.—California turned toward Alabama this week in the search for information about agricultural possibilities.

The weekly summary of F. O. Hooten, supervisor of the division of markets and immigration of the state department of agriculture, today showed a request from C. E. Renard, 611 East Pice street, Los Angeles, Calif., for information about this section of the South. Mr. Renard said he recently passed through Alabama and was greatly impressed with the state, especially the Gulf coast section.

Albert James, route five, Monroeville, Ind., requested literature on the resources and farming opportunities of Alabama.

H. M. Davis, care of Minnie Robbins, Olympia, Ky., stated that he was interested in the raising of beef cattle, hogs and sheep and was seeking a location in that section of Alabama which is best suited for that class of farming.

Charles A. Howell, West Senora, Ohio, requested a soil map of Alabama, and information descriptive of its resources and farming opportunities.

George F. McKenney, Balmorhea, Texas, wrote that he desired to change his location and had turned his eyes toward South Alabama in search of a location where he may raise blooded cattle and continue his business of

farmer and stockman.

Miss Dorothy Waymire, route thirteen, Dayton, Ohio, requested literature about the opportunities in Alabama which would appeal to a prospective settler and investor, especially along agricultural lines. She also asked what other settlers have accomplished in Alabama.

GENUINE VICUNA FUR

SOLD FOR A SONG

(International News Service)
SAN FRANCISCO, Cal., Feb. 28.—A genuine Vicuna fur, six feet square in size, that most any furrier would have paid as high as \$2000 for, has been sold in San Francisco for a mere song.

Walter Ayarza appeared on the streets with the fur for sale and when asked his price quoted \$50. It was sold to almost the first person to ask its price.

According to Ayarza the vicuna fur he sold came from Bolivia, South America, from his brother, and he sold it in an effort to raise funds on which to return to Bolivia, which is his native country. The vicuna, he claimed, is a sheep-like animal and exists only in high mountainous country, such as 12,000 feet.

The fur was as soft as a piece of silk and the skin had been tanned and was as smooth as a chamois.

Removing Ink Stains.

To remove ink stains from either brass or copper a very simple remedy is required, but it is well worth knowing, as otherwise ink spilt on brass or copper inkstands and left to dry is a trouble to remove. Simply pour a few drops of fresh ink on the old stains and rub with a piece of rag, when the old stain will disappear quite easily. Polish in the usual way.

ANOTHER CHIROPRACTIC ACHIEVEMENT

Our Nation Held Spellbound by the Natural Success of Chiropractic

The Case of Miriam Rubin of Waukegan, Illinois, Which Baffled the Medical Scientists

You read about it in the papers. Day after day you saw the dispatches of the pitiful condition of Miriam Rubin of Waukegan, Ill., suffering from a strange talking malady. And, you wondered how long this eight-year-old tot could live, what caused her to talk for more than two hundred and twelve consecutive hours, prohibited solid nourishment for nine days and raised her temperature to a point which implied impending death.

DR. BERGER VOLUNTEERS

This strange malady had baffled specialists. Every form of sedative had been administered, but to no avail. Finally Dr. Paul Berger, a Chiropractor, of Waukegan, asserted confidently that he could save the child's life and pleaded for the opportunity. Dr. R. H. T. Nesbit, the family physician, and two other consultants agreed.

All other treatments were immediately suspended and Dr. Berger made an examination.

The child was placed in a chair, her back bared to the waist. The chiropractor placed a pad beside him containing a chart of the spine and its vertebrae.

FINDS VERTEBRAE SPRUNG

Then he began running trained fingers along the spinal column, much as a musician runs the scale on a piano, and making checks upon his chart. "Here it is," said Dr. Berger. "As I suspected, the second and fifth vertebrae have been sprung out of place. One of them has pinched the nerves which control the organ of speech. The other, perhaps, is causing her wakefulness and her high fever. If you will place your fingers in this position, Dr. Nesbit, you will observe the misalignment."

Dr. Nesbit agreed with the diagnosis. "And now," said Dr. Berger, "to spring them back into place." The chiropractor's strong hands exerted pressure upon the child's small back. There was an audible snap. The child emitted a sigh.

RESPONDS BY SLEEP

Shortly thereafter her temperature dropped four degrees and she lapsed into the first slumber she has had for a week.

"There will be more trouble," said Dr. Berger. "The muscles will again

pull the vertebrae out of alignment. Recurring treatment will be necessary until this abnormality is overcome. But I hope that we have struck the right track."

When she awakened she immediately began babbling again about "teacher," her "dolls," "mamma" and other objects closest to her heart.

But she talked less rapidly and more coherently, and last night fell asleep again for an hour and a half.

Her fever subsided during the past twelve hours and is now near normal.

Dr. Nesbit stated the improvement in the child's condition was quite marked and he believed that she would survive.

DOCTOR'S STATEMENT

"Examination revealed that one of the vertebrae of the neck was subluxated to the right. This may have caused the sleeplessness and the talkativeness," Dr. Berger said.

"The fifth cervical vertebrae was slightly dislocated, which may have accounted for the pains about the shoulders and arms. This resulted in an impingement of the nerves emerging from the spinal column, causing disorder in the organs in which they terminated."

A fall or some such sudden violence is assigned as the original cause of the difficulty.

SPINAL CONTENT TESTED

Dr. Isaac Abt, expert neurologist, of Chicago, made a careful examination of the child Saturday and tapped the spinal column for a specimen of the content. After analysis of this specimen yesterday, the eminent physician stated that there was no indication of any malignant disease.

Why then continue to suffer from an ailment which may appear as impossible of cure? See the Chiropractor and regain your health!

MIRIAM RUBIN

This is Miriam Rubin, aged eight years, of Waukegan, who fell victim to the strange talking malady on February 5th. Specialists from all parts of the country were interested in the case.

Medical science was baffled in its attempt to solve the strange disease. Newspapers carried hourly reports on her condition. Press dispatches were printed in practically every news publication in the country.

All sorts of cures ranging from a boat trip to a musical concert, were recommended in letters sent to her parents. Several Chicago musicians offered their services free.

Still Miriam chatted on for 212 hours until a meek Chiropractic Physician in her own city ventured his services and asserted he thought he could help her. Her recovery was almost instantaneous.

Established Styles in Skirts

JUST now shop windows and show rooms are spring songs of cheerful merchandise. Lovely new cottons, in exquisite weaves, are on display and they include heavy as well as sheer fabrics—the heavy weaves suggesting separate skirts and suits, and the sheer ones enticing the seamstress to make summer frocks. Neighboring windows accommodatingly show ready-made garments, helping to establish the styles, and if one thing is more firmly fixed in our minds than another, it is a vogue for plaited skirts. Eight out of ten models, at least, are plaited, mostly in box plaits, narrow or wide, single, double and triple.

It is the great number of striped and cross-bar patterns in materials that accounts for the diversity in plaits. Designers exercise their ingenuity in producing effects with them

which change the looks of the pattern in the skirt or feature certain colors in it, so that material in which a light and a dark stripe alternate may be made up into a skirt that is all dark, by plaiting the light stripe under—or the reverse. Even the plain-surfaced goods are plaited, however.

One of the practical skirts for spring, as shown in the picture, has a wide, barred stripe, narrowed by plaiting, that alternates with a plain stripe. The belt is made of the barred stripe, with long tabs at each side, turned up and fastened with an odd flat button. There is nothing more trim than a well-fitting plaited skirt.

MISS LUTHER TO ADDRESS CLUB WOMEN

Miss Luther, prominent educator of the state, will address the club women of the Twin Cities Wednesday afternoon of this week at a meeting of the Music Study club to be held at the home of the president, Mrs. Louis A. Neill, 446 Jackson street, with the Music Study club as hostess.

Miss Luther's coming has been looked forward to with great interest by the clubs of the two towns and all the women of the Federated clubs are cordially invited to attend this meeting. A special invitation is also extended the school teachers of Albany-Decatur.

LEAGUE OF WOMEN VOTERS

The League of Women Voters held a most interesting meeting at the Y. M. C. A. Friday afternoon. Miss Unity Dancy, county chairman presiding. The league voted to adopt the course of study sent out by the state league, and in the future, will hold regular meetings the fourth Friday in each month. Much good is sure to result from enthusiastic co-operation in the work. The outlook is very encouraging. Several new members were enrolled yesterday.

Mrs. W. M. Murray was elected secretary of the league, Mrs. W. E. Todd resigned. Mrs. L. P. Troup, Publicity Chairman.

Mrs. Frank Parks and little daughter, have returned to Mt. Pleasant Tenn, after a visit to Mrs. W. A. Green.

Mrs. Joseph Pettet and baby daughter, Martha Francis, have returned from a visit to relatives in Jackson Tenn. Mrs. Pettet was accompanied home by her sister, Miss Marie Hicks.

Mrs. W. A. Green and two children, Rebecca, and Billie, have returned from a visit to Mrs. Harris in Cherokee, Ala.

Miss Gladys Barnes was in Birmingham over the week-end.

Mrs. W. C. Sheppard of Columbia is the expected guest of Mesdames R. T. Sheppard and W. R. Shelton.

Mrs. William H. Bowles has returned to Davenport, Iowa. Mrs. Bowles was called here by the illness of her mother, Mrs. Transue.

PERSONALS

Dr. Welch, state health officer, was a visitor to the Twin Cities this morning, en route to Colbert county. He inspected the Morgan County health unit and renewed many old acquaintances among local physicians.

Mayor E. C. Payne is able to be at his office after an illness of several weeks.

Early Phinix went to Memphis on business this morning.

Sheriff May has returned from Atlanta, Ga.

Tom Rogers, formerly of Albany has returned to Birmingham after an extended western trip. He expects to visit his old home here soon.

J. L. Bibb and little daughter leave this evening for Memphis after spending the week end with Mr. and Mrs. W. A. Bibb.

J. E. Blair has returned from Birmingham.

J.B. Cassels was in Cullman Saturday on business.

A. B. Codrington has recovered following a recent illness.

J. L. Whitson, of Birmingham, has accepted a position with The Daily.

Carl Goodman was in Birmingham Sunday.

Louisville and Nashville Official Formerly Employed in Local Shops

C. S. Sechrist of Louisville, Ky., general master mechanic of the shops of the Louisville and Nashville system, is a Twin City visitor today. Mr. Sechrist is well known in Albany and Decatur, having been employed in the

local shops at one time. He is very popular with all of the employees of this division. He is expected to spend several days on the division, inspecting the equipment, et.

HOUSTON DECLINES TO FURNISH DATA

WASHINGTON, Feb. 28.—Instead of producing the official document and other papers bearing on foreign loans as he had promised to do, Secretary of the Treasury Houston sent word to the Senate judiciary committee today that he had turned them all over to Secretary of State Coby to determine whether they should be made public.

Held on Robbery Charge by Police

Jim Williams, negro, was under arrest today by the Decatur police charged with implication in the robbery of the J. S. Patterson store on Bank street. A negro known as "Cutie" already is under arrest in the same case. The latter escaped from the Decatur jail but was recaptured in Birmingham.

ORY-COHEN

5 DAY SALE OF MERCILESSLY PRICED MERCHANDISE

—5 DAYS—
Tuesday, Mar. 1
TO SATURDAY, MARCH 5

AT
WINTON'S CASH STORE
109 Moulton Street Albany, Ala. 109 Moulton Street

—5 DAYS—
Tuesday, Mar. 1
TO SATURDAY, MARCH 5

A sale of a clean new line of Merchandise, scarcely anything in this store over six months old, consisting of Dry Goods, Clothing, Ladies' Suits, Coats and Dresses, Shoes for the entire family, Men's and Women's Hats, Staple and Fancy Groceries. Many new Spring Goods are included in this Mercilessly Priced Sale. Unloose your purse strings, go to the bank and draw out your savings. Husband, tell your wife to pull down the stocking from the chimney corner and tell Johnny to run down to the pasture and get the horses and hitch to the surrey, for we are going to Albany, to Winton's Cash Store and attend the most Mercilessly Priced Sale ever pulled off in this section of the country; and, wife, this is a sale of new merchandise, the class of Merchandise we want to buy. We do not want to buy from an old Bankrupt stock or a Fire or water damaged stock. We want fresh, new merchandise for a cheap price (these goods are not seconds either). This is just the occasion we have been saving our money for. Hurry on, Johnny, and get the horses and hitch to the surrey and let's be off at once. I would like to get there before the stock is picked over too much. Listen, public! A Sale for all classes of people, for we have all classes of merchandise, and a good clean line of well selected merchandise from the best jobbers and manufacturers in the country.

Ladies' New Spring Coats, Suits and Dresses

In this the Mercilessly Priced Sale, 1 black Seal Plush Coat, that sold last fall for \$125.00, goes for **\$35.00**
